How we support our curriculum at Maidwell Primary School

English

Reading and Phonics: Early Years and Key Stage 1

Fidelity in the teaching of reading and phonics is ensured by daily lessons in both reading and phonics using *Read, Write Inc.* This is embedded and reviewed using the phonics interactive learning platform (padlet).

We teach all aspects of English to include Writing, Reading and Grammar, Punctuation and Spelling through the *Talk for Writing* approach. The school is a recognised Talk for Writing Training School and welcomes teaching colleagues to the school to learn about the approach at regular intervals over the course of the year.

Maths

The *Talk for Writing* approach is embedded in the maths curriculum. We focus on the creation of mathematical toolkits to support learning and there is a particular focus on mathematical language. The curriculum in maths is also supported by *White Rose Maths* and *Rising Stars Mathematics*.

Science

The curriculum covered in Science is supported by *Rising Stars Switched O n Science*. In the same way as all other curriculum areas, the *Talk for Writing* process supports the development of scientific vocabulary and we further model writing in a scientific manner.

Geography

The Geography curriculum is supported by *Rising Stars Geography*.

History

The History curriculum is supported by *Rising Stars History*.

Art

The Art curriculum is supported by *Kapow Primary*.

DT

The DT curriculum is supported by *The Design & Technology Association*.

PE

The PE curriculum, to include PE lessons (see 2-year rolling programme), swimming lessons, lessons in yoga, the development of playground games and PE challenge, as well as support for parents at home is supported by *GetSet4PE.*

RHE

Relationships and Health Education is supported by *Discovery Education.*

Music

Metacognition

The development of Metacognition is supported by *Rising Stars Thinking Classrooms.*

RE

The RE curriculum is supported by *SACRE* lessons.

Computing

The Computing curriculum is supported by *Rising Stars Switched On Computing.* Alongside computing, we also use the *natterhub* platform and their extensive resources to teach online safety.
